

# The only good accident is one that never happens.

## Safer

High-traction surface  
Safer lifting design  
No broken boards  
Static inhibited

## Better for Environment

No fluids absorbed  
Easily cleaned  
Less solids buildup

## Longer Lasting

Synthetic material  
UV rated  
3-ply laminated  
Bolted, not nailed

The all new, much safer **ECOMat™**. That's the mark of Tiger.

Make your drilling or frac site a more sure-footed operation, with Tiger ECOMats. They're loaded with safety features, including a high-traction surface that keeps your people and equipment from slipping. Plus they help you protect the environment

**ECOMats** because they won't absorb chemicals or biodegrade over time. Our heavy-duty 8' x 16' synthetic ECOMats are lighter than wood, compact and easy to transport and install, yet they are much stronger and last longer than wood mats. In short, they eliminate the many problems of wood and composite options. Put a safer, cleaner, smarter foundation under your next project. Insist on ECOMats.

**Make it happen.**
