

## When building your safety program, make this the cornerstone.

### Safer

Better traction surface  
No cable loops or chains  
Safer lifting design

### Easier to Handle

Lighter than wood  
Faster installation  
Won't float

### More Durable

Synthetic material  
UV rated  
3-ply laminated  
Bolted, not nailed

A safer worksite with ECOMats.™ That's the mark of Tiger. 

If safety comes first on your right-of-way, make sure ECOMats come first *to* your right-of-way. Synthetic ECOMats place your entire operation on a more secure foundation. They're packed with safety features, including a high-traction surface that gives work boots and vehicles a **ECOMats** no-slip grip. ECOMats won't rot and splinter apart or expose sharp nails or absorb chemicals. At 8' x 16', they're lighter than wood and easier to transport, install and reinstall. Plus they're the strongest and most durable mats out there. It's time to eliminate wood and composite mats from your worksite and all their many problems. Build safer, with ECOMats.

*Make it happen.*
