## Cargo Carrying Equipment & Dry Containers

Offshore cargo equipment and containers vary immensely in weights, dimensions, configurations and materials. Tiger is the one company that does carry them all. We offer the largest, newest and most diverse fleet of cargo carrying units and dry containers in the business. In fact, we have 70 different containers to choose from in the broadest range of heights, widths and lengths spanning up to 105 feet. With Tiger, you are able to source exactly the right containers for every job you need to accomplish.

## H<sub>2</sub>S Services

Tiger provides H<sub>2</sub>S services and crews with wireless gas detection and alarm systems that are ideal for your flowback job. Tiger technicians will train, fit test, and drill all personnel on your work-site and construct your H<sub>2</sub>S contingency plan to satisfy all regulatory agencies for permits and compliance. Our highly trained technicians will set up gas detection (wireless or wired) systems, alarms, and respiratory systems for any drilling scenario. All equipment will be monitored, calibrated, and tested as well as documented for the duration of the project.

An aerial photograph of a blue and white offshore supply vessel. A yellow crane is hoisting a white container with orange top rails. The container is filled with coiled cables. The vessel's deck is cluttered with various equipment, including more containers and coiled hoses. The water is a deep blue with whitecaps.

# 2017

## Fluid Transport Tanks & Logistics Equipment

Tiger's equipment is built for severe conditions. Not only is our fleet of containers new, it's also built to last. Our units are constructed of the toughest materials. Plus there are ample options for specialized uses, such as additional tie downs, saddle support for containing round objects, side door access for easy loading on some DNV 2.7-1 baskets, and rubber seals on open baskets to make them fluid containment capable. Our units meet industry standards for labeling details such as load capability, and the top rails are painted safety orange for high visibility in the harsh, high-activity environments common to offshore.

## Cuttings Boxes & Waste Skips

Tiger cuttings boxes are designed to readily adapt to a wide variety of closed-loop systems, with user-friendly features that allow easy handling by multiple subcontractors throughout the delivery-removal cycle. This gives you immense flexibility across your operations while strictly maintaining compliance. Tiger has a large inventory of cuttings boxes and waste skips in a variety of sizes. Every unit is built for outstanding offshore performance with features such as a rust-resistant galvanized finish, and multiple ports that allow for faster cuttings collection. Our cuttings boxes also have lighter lids, nearly half the weight of many competitors' boxes, making a substantial difference in preventing injuries.

## ECOmats™

The much safer, much tougher ECOmat.™ Designed to provide temporary stability and improvement of ground conditions for oil and gas, industrial and commercial construction projects. Built with a segmented [non-hollow core], the synthetic ECOmat™ addresses structural needs and dramatically improves project foundations. **Key Safety Benefits:** No cable loops or chain loops. Recessed D-Rings reduce tripping hazards. Galvanized D-Rings enhance lifting performance. Load rated to 4,000 lbs in a pair and meets ASME B30 Lifting Standards. Boards are tightly spaced, reducing ankle rollovers. All bolted, no nails to puncture shoes or tires. Static Inhibitors. Modular to reduce replacement cost. Class II Fire Spread Rating.

## Fluid Transport, Mixing and Storage Tanks

Tiger offers multiple styles and sizes of tanks in vertical and horizontal configurations. We carry a wide range of mixing and storage tanks so you can rent from one dependable source. With performance built in, Tiger's Coast Guard, IM 101, IMDG, DPC, IBC, and UN tanks keep your fluids safely and reliably contained. Each unit is designed and constructed with robust components to prevent leaks and provide years of reliable performance. We offer a full line of offshore tanks for fluid collection, storage, transport and disposal. Our tanks are designed for drilling muds, completion fluids, production chemicals, acids, lubricants, aviation fuel, waste oil and waste water. We can support everything from a 10,000 bbl flow back job to transporting 1,000 gals of diesel.

## Blast Resistant Buildings

Tiger Industrial Rentals furnishes a variety of buildings for use in the oil and gas industry as well as commercial, industrial and emergency response applications. Tiger's buildings come in various styles and can be used as shelters, housing, offices space, training rooms, restroom facilities, medical clinics and more. Our blast resistant buildings can withstand the effects of explosions, extreme heat, fire, excessive noise and projectiles from accidents that occur in the field or combative situations. Combined with accessories and rental equipment, Tiger can customize a building package to accommodate your requirements for ultimate protection.

## Vessel Pipe Racks, Slings & Rigging

Tiger manufactures highly reliable vessel pipe racks and slings, commonly used in the transporting or moving of cylindrical smooth wall pipe, drill pipe, casing and other tubulars. Our vessel pipe racks provide a safe and secure pathway between stowage to eliminate the dangerous practice of climbing on pipe to disconnect rigging. Tiger Offshore has the safest compliance management program in the industry for lifting slings and rigging, complying with API RP-75 safe practices and BESSE. Tiger vessel pipe racks, slings & rigging reduce liability exposure on your facility and protect life and assets.

## Field Services

In today's oil and gas industry, hydraulic fracturing plays a major role in hydrocarbon production. While flowing back a well after fracturing, many undesirable solids including sands are produced which can damage integral equipment. This can cause unnecessary loss of time and money. Tiger Safety provides 3 different pressure rated sand separators to protect your downstream equipment. Tiger has a large stock of units available in all major shale plays in the United States including North and South Texas, North & South Louisiana, Pennsylvania, Colorado, Ohio and more.
